\* The liquidation provision comprises projected legal fees and other professional fees necessary for the expected liquidation period of the Fund. It is unclear if and when the remaining part of the portfolio can be monetized. Certain factors outside the influence of the Fund Manager determine the timing and associated costs of the liquidation process. Liquidation costs could turn out significantly lower or higher than foreseen in the provision.

## Profile

The Global Opportunities Fund (the Fund) is a contractual investment fund (“beleggingsfonds” or “fonds voor gemene rekening”). It is not a legal entity but a contractual arrangement sui generis between the Fund Manager, the Depositary and the Unit holders.

The Fund was established on 25 September 2000. The Fund Manager holds a license from the Dutch Authority for the Financial Markets (AFM) and operates under the ‘Act Financial Supervision’ (Wet op het Financieel Toezicht).

On 17 December 2008, the Fund Manager announced the decision to close and unwind the Global Opportunities Fund. Since then, subscriptions and redemptions of Unitholders are not accepted. In 2009 three redemption payments were made. In addition, one redemption payment was made in April 2016. These payments combined represent around 100% of the net asset value of the Fund per ultimo 2008.

# Fund Manager Report

## INTRODUCTION

The net asset value excluding the liquidation provision of the Global Opportunities Fund amounted to €6.71 on 30 June 2017, compared to €6.89 on 31 December 2016. The net asset value including the liquidation provision of the Global Opportunities Fund amounted to €3.33 on 30 June 2017, compared to €3.35 on 31 December 2016.

At 30 June 2017, the value of the portfolio of the Global Opportunities Fund comprised the remainder of the ongoing Thielert claim (valued at nil), a claim on the insolvency estate of Thielert (valued at nil) and cash. The cash of the Global Opportunities Fund cannot be distributed as it is required to have sufficient funds to sustain the remaining Thielert claim.

During the first half of 2017 the Fund Manager and the Supervisory Council had intense contact to discuss progress. In addition, the members of the Reference Board (“klankbordgroep”) were informed about the latest developments. This Reference Board has no formal status, but advises the Supervisory Council during the period of unwinding the Global Opportunities Fund. The Reference Board is comprised of two participants.

## INVESTMENTS

Below the remaining position of the Fund is discussed.

### **Thielert claim**

#### *Background*

In November 2008 the Fund and the insolvency administrator of Thielert AG started a civil procedure in Hamburg against the former CEO of Thielert AG, former chairman of the supervisory board, Dresdner Bank responsible for the IPO of Thielert AG (today Commerzbank) and the former accountant BDO AG.

#### *Developments prior to 2017*

In 2013 the court published its verdict in the first instance of this civil procedure. The accountant BDO AG and Mr. Thielert were ordered to pay damages which, including interest, exceeded €40 million to be paid to the Fund and insolvency administrator together. The bank and former chairman of the supervisory board were not convicted.

Parties (including the Global Opportunities Fund together with the insolvency administrator) appealed the verdict in 2013. The second phase started before the Hanseatischen Oberlandesgericht in Hamburg.

At the end of 2015, the Global Opportunities Fund, together with the insolvency administrator of Thielert AG, reached a verbal agreement on a final settlement with one defendant: accountant BDO AG at the value of €40 million. A final written agreement was signed at 18 January 2016. The Fund received €25 million as a result.

#### *Developments 2017 and outlook claim*

After the settlement with one party in early 2016, the Fund Manager continued the claim against the three remaining defendants. During 2016 and first half of 2017 the court made good progress with the second phase. One hearing took place in May 2017. It is now the expectation of the Fund Manager that the court will come to a verdict in the fourth quarter of 2017. However, this is uncertain as the timing of the remaining part of the second phase of the process will be determined by the court.

After a verdict of the second phase against the remaining defendants, it is possible for parties to appeal, which could lead to a third and final phase at the highest Court of Justice (“Bundesgerichtshof”). Consequently, the Thielert case could potentially take several more years to final completion.

The outcome of the final verdict of the claim against the remaining three defendants is uncertain. In case the claim proves unsuccessful, the Global Opportunities Fund could be held liable by the court for legal costs for the three remaining defendants.

Also, the remaining parties could reach an out of court settlement. The Global Opportunities Fund has valued the remaining Thielert claim at nil. Any potential future amount from the Global Opportunities Fund’s claim in the insolvency estate is also valued at nil.

Any amount derived from this proceeding (damages ordered by the court or any settlement amount) will be split via an in 2008 pre-agreed distribution arrangement between the Global Opportunities Fund and the insolvency administrator of Thielert AG. Additionally, the Global Opportunities Fund has applied for damages into the insolvency estate of Thielert AG. Any distribution to the Fund will be determined by the insolvency administrator.

In the best interest of the legal procedure, further information cannot be provided at this stage.

## **OUTLOOK FOR THE REMAINING PART OF THE UNWINDING PROCESS**

On 17 December 2008, the Fund Manager announced its decision to unwind the Global Opportunities Fund. In 2009 three redemption payments were made. In addition, one redemption payment of € 21.50 was made in April 2016. These combined payments represent around 100% of the net asset value of the Fund per ultimo 2008.

The claim against the remaining three defendants will be continued. The timing and outcome is uncertain.

## **DECLARATION CONDUCT OF BUSINESS**

Our activities are organized in accordance with a description of the operational structure which fulfils the requirements of the Act on Financial Supervision and the Decree on the Supervision of the Conduct of Financial Enterprises.

We have not become aware of any facts or other elements that would make us believe that the description of the operational structure as provided for under article 121 of the Decree of the Supervision of the Conduct of Financial Enterprises does not comply with the Act on Financial Supervision and the regulations adapted pursuant to such Act. We are therefore able to confirm, in our capacity as Manager of the Fund, that our activities are carried out based on a description of the operational structures as referred to under article 121 of the Decree on the Supervision of the Conduct of Financial Enterprises and that such a description fulfills the requirements on the Decree of the Supervision of the Conduct of Financial Enterprises.

We have not become aware of any fact or other elements that would make us believe that the operational structure was not carried out in an efficient way and in accordance with the description. We therefore state with a reasonable level of certainty that our operations are carried out effectively and in accordance with the description.

Amsterdam, 11 August 2017

The Fund Manager  
Global Opportunities (GO) Capital Asset Management B.V.

# Notes

## General

Global Opportunities Fund in liquidation is a contractual investment fund (*beleggingsfonds or fonds voor gemene rekening*) with an open-end structure. The Fund is governed by the Terms and Conditions in accordance with the laws of The Netherlands.

The format of these financial statements is in accordance with legal financial reporting standards in the Netherlands (Part 9 of Book 2 of the Dutch Civil Code), the Guiding Principles for Investment Institutions of the Council for Reporting (Richtlijn Beleggingsinstellingen van de Raad voor de Jaarverslaggeving) and the Act on Financial Supervision. Expected costs required to fully liquidate the Fund have been recognized in the balance sheet.

On 17 December 2008, the Fund Manager announced the decision to dissolve and liquidate the Fund. Since 2009 the Fund has made four liquidation payments of in total Eur 228.20 per participation including dividend. These combined payments represent around 100% of the net asset value of the Fund per ultimo 2008.

### *Valuation foreign currency*

Assets and liabilities in foreign currencies are translated into Euros at the exchange rate at balance sheet date. Income and expenses in foreign currencies are translated at the exchange rate as per transaction date. All exchange differences are part of the profit and loss account. The Fund's cash position is in Euros.

## Basis of valuation

The balance sheet has been drawn-up taking into account the announced liquidation of the Fund and has been valued at liquidation value, which is equal to fair value, unless explicitly indicated.

As per 1 January 2015 Dutch Accounting Standard RJ 170 has changed, allowing entities for which the going concern assumption is no longer applicable to continue to apply the (previously under the going concern assumption) applied accounting policies, if certain conditions are met. However, as the Fund applied the liquidation principle and liquidation accounting policies since 2008 under the previous version of RJ 170, the Fund decided not to adopt the possibility supplied by the revised RJ 170 and continue to use the accounting policies on a liquidation basis.

The remaining assets of the Fund, being the balance of the receivables, other assets and remaining cash decreased with the current liabilities will be distributed to the participants in one or more liquidation payments.

The liquidation payments may not be equal to the total net asset value of the Fund as per date the liquidation has been approved (17 December 2008) or the balance sheet date (30 June 2017). The full liquidation of the Fund may cause the Fund to dispose of its assets and liabilities under less favourable market conditions than the market conditions on 17 December 2008 or 30 June 2017 which may result in lower total liquidation payments. Any final liquidation payment will largely be determined by the timing and the final outcome of the Thielert court case. This court case could potentially in a second or third phase take several more years to complete. The verdict in a second and perhaps final third phase before the Federal Court of Justice (Bundesgerichtshof) could be significantly different from the verdict by the judge in the first phase which was published on 12 June 2013.

### *Investments*

The valuation of investments is based on the following most important principles:

- listed securities with a regular marketability are valued at most recent stock market prices. The fund did not hold any listed securities during the first half of 2017.
- any security which is neither listed nor quoted on any securities exchange or similar electronic system or if, being so listed or quoted, is not regularly traded thereon or in respect of which no regular prices are available, will be valued at its probable realization value as determined by the Fund Manager in good faith having regard to its cost price, the price at which any recent transaction in the security may have been effected, the size of the holding having regard to the total amount of such security in issue. Such other factors as the Fund Manager in its sole discretion deems relevant in considering a positive or negative adjustment to the valuation.
- cash and deposits are valued at nominal value plus accrued interest.
- any value other than Euros is converted to Euros at balance sheet date exchange rate.

Trading costs are included in the cost of investments. These expenses are capitalized into the capital gains/-losses due to the valuation at fair values.

The Fund Manager may, at their discretion, permit any other method of valuation to be used if they consider that such method of valuation better reflects value and is in accordance with good accounting practice.

### *Financial instruments*

Financial instruments are valued at fair value. The fair value of financial instruments is based on market values. An explanation of the risks related to financial instruments, is provided in the 'Notes to the balance sheet'.

### *Other assets and liabilities*

Other assets and liabilities are stated at nominal value. If required, provisions have been taken for irrecoverable receivables.

#### *Provisions*

The provision comprises amongst others projected legal fees and other professional fees necessary for the expected liquidation period of the Fund. Each year, operational costs are accounted for in the Profit and Loss statement, whilst at the same time an equivalent amount is released from the provision. In this way, the provision stated on the balance sheet is each year reduced by the operational costs during that year. It is unclear if and when the remaining part of the portfolio can be monetized. Certain factors outside the influence of the Fund Manager – of which the Thielert court case is most important – determine the timing and associated costs of the liquidation process. Liquidation costs could turn out significantly lower or higher than foreseen.

#### **Accounting principles for determining results**

The result is determined by deducting expenses from the proceeds of dividend, interest, income from securities lending and other income in the period under review. The realized and unrealized revaluations of investments are determined by deducting the purchase price or the balance sheet value at the start of the period under review from the sale proceeds or the balance sheet at the end of the period under review.

#### **Tax**

The Fund opted for the tax status of fiscal investment institution according to Article 28 of the Dutch Corporate Tax Act 1969. As a fiscal investment institution, the Fund is subject to a 0% corporate tax rate, if the Fund complies to certain conditions. Therefore, no tax burden is expressed in the reported figures.

With respect to withholding tax paid on dividends made by Dutch companies to the Fund, the Fund is, on request, entitled to a refund by the Dutch tax authorities. With respect to withholding tax paid on dividends from foreign investments, the Fund is entitled to a reimbursement by the Dutch tax authorities, the amount of which depends on the ratio between taxable Dutch residents and other foreign unit holders. For the remaining part on tax paid on foreign dividends, the Fund reclaims this tax with the foreign tax authorities. A tax reclaim for tax paid on foreign dividends depends on the tax treaty between the Dutch tax authorities and the applicable foreign tax authority.

## Notes to the balance sheet

	30-06-2017 EUR	31-12-2016 EUR
<b>Investments (1)</b>		
<i>Statement of changes in equities (1.1)</i>		
Position at 1 January	-	-
Purchases	-	-
Sales	-	-
Realized gains/-losses on investments	-	-
Unrealized gains/-losses on investments	-	-
	<u>-</u>	<u>-</u>
Position at period end	<u>-</u>	<u>-</u>
Historical cost	<b>38,804,456</b>	38,804,456

The Fund has a position in Hunt Global Resources Inc. The shares are valued at nil at balance sheet date (unchanged versus year end 2016). The Fund Manager regards it impossible that the Fund at any time in the future can realize any value. As such, this investment is as a complete loss.

### Receivables (2)

*Other receivables (2.1)*

Reclaimable withholding tax	-	10,001
Reclaimed unjustified direct debits	<b>300</b>	4,100
	<u>300</u>	<u>14,101</u>

### Other assets (3)

*Cash at banks (3.1)*

This item presents the credit position on the current account.

### Current liabilities (due within one year) (4)

*Other liabilities (4.1)*

Liquidation payments to be paid	<b>1,057,334</b>	1,177,052
Accrued expenses	<b>15,000</b>	15,000
	<u>1,072,334</u>	<u>1,192,052</u>

The liquidation payments exists of the per 30 June 2017 remaining amount to be paid in regard of the liquidation payment of April 2016. The accrued expected expenses regarding the liquidation of the Fund consist of audit fees for the annual report of 2016.

### Provisions (5)

*Statement of changes in provisions (5.1)*

	Legal fees	Other professional fees	Total provisions
Position at 1 January	3,105,007	514,863	<b>3,619,870</b>
Utilization provision	-69,008	-96,726	<b>-165,734</b>
Increase provision	-	-	-
	<u>3,035,999</u>	<u>418,137</u>	<u><b>3,454,136</b></u>

The provision on the legal fees and other professional fees was formed following the liquidation decision of the Fund 17 December 2008. It is unclear at this moment if and when the remaining part of the portfolio can be monetized. Certain factors - predominantly the timing and the outcome of the Thielert court case - outside the influence of the Fund Manager determine the timing and associated costs of the liquidation process. Liquidation costs could turn out significantly lower or higher than foreseen.

## Financial instruments

*General*

This annual report aims to give an adequate overview of all positions in portfolio at balance sheet date. In addition, a clear insight regarding financial instruments requires additional information regarding positions and its potential risk due to changes in underlying assets, market prices, interest rates, exchange rates and liquidities.

At balance sheet date the Fund did not have any liabilities concerning transactions in financial derivatives.

## Risk factors

Conform the Act on Financial Supervision 2008 the annual report should set out the risks involved which relate to investing in the Fund. There can be no assurance that the Fund's investment policy will be successful or that the Fund will achieve its investment objectives. An investment in Units carries a high degree of risk and is suitable only for persons who can assume the risk of losing their entire investment. The Fund is in liquidation since December 2008, the Fund will not invest in new positions and as such, the description of risks should be seen against this background. The Fund does not accept redemption requests.

Any investor should consider, among others, the risks mentioned below, review the Prospectus and its ancillary documents carefully and consult with their professional advisors. Returns on past investments are no guarantee as to the returns on future investments. The Prospectus does not purport to identify, and does not necessarily identify, all of the risk factors associated with investing in the Units and certain risks not identified herein may be substantially greater than those that are. Accordingly, each investor, prior to making any investment decision, must conduct and rely upon its own investigation of risk factors associated with the proposed investment. Investment in the Fund should be regarded as long-term and should form only part of an otherwise diversified investment portfolio. An investment in the Fund requires the financial ability and willingness to accept for an indefinite period of time the risk and lack of liquidity inherent in the Fund. The variation in the value of the Fund and associated costs for liquidation will depend largely on the outcome of the Thielert civil court case.

## Investment risks

The Fund is in liquidation and as such the Fund did not invest in new positions in first half of 2017 and will not invest in new positions going forward. Available means will only be used with the purpose of pursuing the Thielert court case and after final completion liquidating the Fund. The investment result of the Fund is amongst others dependent on the outcome of the Thielert court case, the associated costs and utilization of the liquidation provision. Furthermore, some of these risks might also materialize in the future.

*Leverage*

During the year the Fund did not use leverage for financing its obligations. During the liquidation phase, financial leverage will not be used.

#### *Lack of Liquidity*

A substantial part of the investments of the Fund may be in financial instruments which are illiquid or may become illiquid under certain market conditions. Accordingly, it may not always be possible to purchase or sell those financial instruments for the prices quoted on the various exchanges or for their expected value. The Fund's ability to respond to market movements may be impaired and the Fund may experience severe adverse price movements upon liquidation of its investments.

If trading on an exchange is suspended, the Fund may not be able to execute trades or sell positions at preferred prices. OTC transactions may involve additional risk, as there is no exchange or market on which to close out an open position. It may be impossible to liquidate an existing position, to assess the value of a position or to assess the exposure to risk.

#### *Concentration of Investments*

The Fund is in liquidation and as such will not make new investments. The Fund held in the past relatively few, large investments in relation to the size of the Fund. As at 30 June 2017 the remaining value of the Fund was the Thielert claim, valued at nil and cash. The remaining cash after finalization of the Thielert court case, will be distributed to participants in one or more (final) liquidation payments.

#### *Valuation of Investments in Non-Listed Financial Instrument*

The Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected. Lack of liquidity may aggravate such losses significantly. In addition, the Fund may own a significant percentage of the shares issued by a company. It may not always be possible to dispose of such shares without incurring significant losses. Potential profits may not always be immediately realizable and may therefore be lost prior to realization. As the Fund is in liquidation, no new investments will be made. As at 30 June 2017 the Fund held certificates of Hunt, which were valued at nil.

#### *Redemption Risk*

The Fund is an open-ended fund and Units may be redeemed in accordance with section 14 of the Prospectus and the Terms and Conditions. Redemptions may cause the Fund to dispose of assets in order to meet its redemption obligations earlier than anticipated or under less favorable market conditions than the Fund would otherwise have disposed of such assets. This may result in a lower Net Asset Value of the Fund generating lower or negative returns for the non-redeeming Unit holders. Significant redemptions may lead to significant losses to Unit holders which remain invested in the Fund. The Fund is in liquidation per 17 December 2008 and redemptions are not accepted since.

#### *Limited Due Diligence*

The Fund Manager will not always carry out a business analysis and will usually not engage in extensive due diligence procedures prior to investing in certain companies. The Fund will not make new investments, since it is in liquidation.

### **General risks**

#### *Business Risk*

The investment result of the Fund is solely reliant on the timing and the outcome of the Thielert court case. The verdict of the judge in a second or third phase is uncertain and could be significantly different from the verdict in the first phase, which was published on 12 June 2013. The Thielert court case could potentially take several more years to complete. The position of Hunt is valued at nil at 30 June 2017 and the Fund Manager regards it impossible that the Fund could realize any value from a sale of the certificates. As such, this investment should be considered as a complete loss.

The liquidation results of the Fund are reliant upon the success of the Fund Manager and is substantially dependent on the services of the two key individuals who are responsible for managing the liquidation process of the Fund. These key individuals are connected with the Fund Manager. In the event of death, disability, departure, insolvency or withdrawal of any of these two key individuals, the liquidation process of the Fund maybe adversely affected. No assurance can be given that the Units of the Fund will increase in value. An investment in Units therefore carries a high degree of risk and is suitable only for persons who can assume the risk of losing their entire investment.

#### *Net Asset Value Considerations*

The Net Asset Value per Unit is expected to fluctuate heavily over time with the performance of the Fund's investments. A Unit holder may not fully recover its initial investment when he chooses to redeem his Units or upon compulsory redemption if the Net Asset Value per Unit at the time of such redemption is less than the Subscription Amount paid by such Unit holder or if any unamortized costs and expenses of establishing the Fund remain. The Net Asset Value per Unit could fluctuate as a result of future legal fees and other professional fees. These actual costs could turn out lower or higher than foreseen in the provision which was formed on the liquidation of the Fund. The timing of the liquidation process and the development of the Thielert court case determine the costs of the liquidation process.

#### *Illiquidity of Units*

The Units are not listed on any stock exchange. Unit holders will, however, be able to redeem their Units subject to the restrictions set out herein and in accordance with the Terms and Conditions and they have the option to transfer their Units to third parties after receiving the consent of the Fund Manager and the Depositary. As redemption is subject to the restrictions set out herein and in the Terms and Conditions, a Unit holder may not always be in the position to redeem at the expected Net Asset Value per Unit. The Fund is in liquidation and as such the Fund cannot accept redemption requests.

#### *Inflation & Deflation*

Due to inflation, the relative value of Units may decline. The Fund will not specifically hedge inflation risk or take other measures to mitigate this specific risk.

#### **Market risk**

##### *Settlement Risk*

Some of the markets in which the Fund may effect its transactions are OTC or "interdealer" markets. The participants in such markets are typically not subject to credit evaluation and regulatory oversight as are members of "exchange based" markets. To the extent the Fund invests in OTC transactions, on these markets, the Fund may take a credit risk with regard to parties with whom it trades and may also bear the risk of settlement default. These risks may differ materially from those entailed in exchange-traded transactions, which generally are backed by clearing organization guarantees, daily marking-to-market and settlement, and segregation and minimum capital requirements applicable to intermediaries. Transactions entered into directly between two counterparties generally do not benefit from such protections. This will expose the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bonafide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. The Fund will not be restricted from dealing with any particular counterparty or from concentrating any or all of its transactions with one counterparty. The ability of the Fund to transact business with any one or number of counterparties, the lack of any independent evaluation of such counterparties' financial capabilities and the absence of a regulated market to facilitate settlement may increase the potential for losses by the Fund. In addition, with respect to synthetic positions, the Fund will not usually have a contractual relationship with the underlying issuer of the underlying obligation. Therefore, the Fund will generally have no direct right to enforce compliance by the actual issuer with the terms of the underlying obligation nor have any voting rights with respect to the underlying obligation. In the event of the insolvency of the counterparty to such synthetic position, the Fund will be treated as a general creditor of such counterparty and will not have any claim with respect to the underlying obligation.

##### *Pre-IPO risk*

"Pre-IPO" investing involves buying a stake in a company before the company makes its initial public offering of securities. Many companies and promoters entice investors by promising an opportunity to make high returns by investing in a start-up enterprise. Investing at the pre-IPO stage can involve significant risks as fraudulent and illegal practices may take place. The possibility that the relevant company never goes public, that the offering is illegal or that the securities that are subscribed for are restricted may cause the Fund to loose out on its entire subscription. The Fund did not have a position in pre-IPO investments during the first half year 2017 or at balance sheet date.

##### *Currency Exposure*

The Units are denominated in Euro and will be issued and redeemed in this currency. Investors whose assets and liabilities are predominantly in other currencies should take into account the potential risk of loss arising from fluctuations in value between the Euro and such other currencies. Currency exposures of the Fund will in principle not be hedged. At balance sheet date, the Fund holds its cash balance in euros.

#### **Other risks**

##### *Political risk*

The investments of the Fund may be adversely affected by developments in the countries that the Fund may invest in. This may result in a partial or complete loss of the investments made by the Fund. Such developments include,

- (i) war;
- (ii) civil unrest, ranging from protests to civil war;
- (iii) changes in the political situation and/or government of a country; and
- (iv) acts of terrorism.

##### *Conflicts of Interest*

It is possible that the Fund Manager, the Depositary or the Administrator may, in the course of business, have conflicts of interest with the Fund. Each will, at all times, have regard in such event to its obligations to the Fund and will endeavor to ensure that such conflicts are resolved fairly. In addition, subject to applicable law, any of the foregoing may deal, as principal or agent, with the Fund, provided that such dealings are carried out as if effected on normal commercial terms negotiated on an arm's length basis. The Fund Manager or any person connected with the Fund Manager may invest in, directly or indirectly, or manage or advise other investment funds or accounts which invest in assets which may also be purchased or sold by the Fund. Neither the Fund Manager nor any person connected with it is under any obligation to offer investment opportunities of which any of them becomes aware to the Fund or to account to the Fund in respect of (or share with the Fund or inform the Fund of) any such transactions or any benefit received by any of them from any such transaction, but will allocate such opportunities on an equitable basis between the Fund and other clients.

##### *Profit Sharing*

The Fundmanager is entitled to a Performance Fee. In November 2008, the Fund Manager decided to renunciate from receiving a performance fee.

*Regulatory Risk*

The regulatory environment for investment funds is evolving and changes therein may adversely affect the Fund's ability to pursue its liquidation route. In addition, the regulatory and/or tax environment for financial claims is evolving and may be subject to modification by government or judicial action which may adversely affect the value of the claims held by the Fund. The effect of any future regulatory or tax change on the Fund is impossible to predict. Furthermore, unclear rules and regulations and conflicting advice may result in a breach of rules and regulations applicable to the Fund in liquidation. Resulting fines and other sanctions and possible damage to the reputation of the Fund, the Fund Manager and other connected persons may result in a negative impact on the Net Asset Value of the Fund and Units.

## Notes to the Profit and Loss account

### Income from investments (7)

*Interest income/expenses (7)*

This includes the interest income and expenses as a result of the investment policy.

	01-01-2016	01-01-2016
	30-06-2016	30-06-2016
	EUR	EUR
<b>Expenses (8)</b>		
<i>Investment management fees (8.1)</i>		
Performance fee (8.1.1)	-	-
Management fee (8.1.2)	51,049	62,974
	<u>51,049</u>	<u>62,974</u>

#### *Performance fee (8.1.1)*

The Fund Manager is entitled to a performance fee at a rate of 20% of any increase in the Net Asset Value of the Fund (including net realized gains), adjusted for subscriptions and redemptions of units and distributions. The performance fee is payable per quarter. On a daily basis an accrual for the performance fee, if applicable, will be made as a part of the Net Asset Value calculation. No performance fee shall be payable by the Fund if the Net Asset Value, adjusted for subscriptions and redemptions of units and distributions, at the end of a quarter is lower than the same amount at the end of any previous quarter calculated over a period of two years. In November 2008, the Fund Manager decided to renunciate from receiving a performance fee.

#### *Management fee (8.1.2)*

The Fund Manager is entitled to a Management fee equal to 0.18% per month of the Net Asset Value of the Fund. The management fee shall be payable out of the assets of the Fund and shall be payable at the start of the next month. In October 2009 the Fund Manager announced that it would renunciate from receiving management fee. Despite the exceedance of the liquidation period by more than three years the Fund Manager adhered to not receiving management fee. After consultation with the Supervisory Board a decision has been taken to reintroduce a cost contribution arrangement to the Fund Manager as from January 1st, 2014 as laid out in article 19.1 of the Terms and Conditions of the Prospectus. This cost contribution will have the form of an hourly fee of Eur 90. This will allow the Fund Manager to warrant a continuation of the Thielert claim, which is in the best interest of all participants. The amount of EUR 51,049 represents the costs of the first half year of 2017.

#### *Depositary fee (8.2)*

As a result of the Act on Financial Supervision 2008 (*Wet op het Financieel Toezicht*) a Depositary holds the assets of the Fund on behalf and for the account of the unit holders. For acknowledged activities the Depositary is entitled to receive a fee of Eur 5,000 increased with 0.01% of the average Net Asset Value of the Fund in that year for the entire Fund.

	01-01-2016	01-01-2016
	30-06-2016	30-06-2016
	EUR	EUR
<i>Other expenses (9.3)</i>		
Legal fees	69,008	57,821
Auditor and fiscal advisor fee	8,615	12,847
Register fee	12,480	12,460
Supervisory fee	12,100	12,100
Risk management advisory expenses	3,630	-
Fee Wft (Act on Financial Supervision)	1,878	2,069
Publicity expenses	1,790	6,706
Commissions and bank charges	5,721	6,172
	<u>115,222</u>	<u>110,175</u>

The legal fees are due to advisory costs in respect to the court case with the investment in shares Thielert and the closure of the Fund. The majority of the expected expenses regarding the liquidation of the Fund consist of expected legal fees. All costs are monitored closely and are based on market conditions.

The register fee are due again since January 1, 2016.

### Ongoing charges figure

The ongoing charges figure (successor of the total expense ratio) is calculated as follows: total expenses divided by the average Net Asset Value of the Fund.

- Total expenses are the costs which are reported in the profit and loss account, excluding interest costs. The expenses related to subscriptions and redemptions covered by a mark-up or down, will not be taken into account.
- The average Net Asset Value of the Fund for reporting period is calculated as the sum of every published Net Asset Value in the reporting year divided by the number of observations.

The ongoing charges figure of the Fund for the half year 2017 amounts to: 4.9%, annualized 9.8% (half year 2016: 1.2%, annualized: 2.4%). The calculation of the ongoing charges figure has been made without utilization of the provision as mentioned in the profit and loss account.

## Turnover ratio

The turnover ratio represents the transaction volume in percentages of the average assets of the Fund. The sum of sales proceeds and purchases together corrected for subscriptions and redemptions represents the transaction volume. This volume divided by the average Net Asset Value represents the turnover ratio.

The turnover ratio for the Fund is calculated in the following table:

Table: Calculation turnover ratio of Global Opportunities (amounts  $\times 1,000$  Euro)

	H1 2017	H1 2016
Purchases	-	-
Sales	-	-
Subscriptions	-	-
Redemptions	-	-
<b>(a) Volume purchase sales corrected for subscriptions and redemptions</b>	<b>-</b>	<b>-</b>
<b>(b) Average Net Asset Value (*)</b>	<b>3,404</b>	<b>14,429</b>
<b>Turnover ratio (a)/(b)</b>	<b>0%</b>	<b>0%</b>

(\*) The average net asset value is calculated as explained in the expense ratio.

The turnover ratio of the Fund for half year 2017 amounts to: 0%, annualized 0%. (Half year 2016: 0%, annualized 0%).

## Transaction costs

During the first half of 2017 the transaction costs amounts to Eur 0.

## Actual costs compared to prospectus

The table hereunder presents a cost comparison between costs as described in the prospectus with the actual costs the Fund incurred in the first half of 2017. This cost comparison is in accordance with article 123 paragraph j Bgfo Wft. The difference of EUR 115,222 is due to variable costs which are mentioned in the prospectus under 16.7 "other fees and expenses". A specific calculation of these costs is not available in advance as these costs are mostly future and variable costs and contingent upon circumstances arising. The actual costs incurred are presented under depositary fee, interest expenses and other expenses and explains the presented difference of EUR 115,222.

Table: Cost comparison actual cost versus prospectus ( $\times 1,000$  Euro)

Expenses	Prospectus	Actual Cost	Difference
Management Fee	51	51	-
Depositary Fee	-	-	-
Other Fees and Expenses	p.m.	115	-115
	<b>51</b>	<b>166</b>	<b>-115</b>

Global Opportunities (GO) Capital Asset Management B.V.

## Supplementary notes

The Fund has outsourced the following duties:

### *Administration*

The Fund has engaged CACEIS Bank Luxembourg - Amsterdam Branch to provide certain financial, accounting, administrative and other services to the Fund. The Administrator provides, subject to the overall direction of the Fund Manager, administrative services, for instance Net Asset Value calculation and general administration of the Fund. Furthermore the administrator provides information for the composition of the semi-annual and annual accounts. The Administrator receives a fee with a maximum of €110,000 (VAT excluded), per year. The fee is based on the following applicable percentages related to the Net Asset Value :

Net Asset Value in the range up to :

Eur 20,000,000: 0.020%

Eur 50,000,000: 0.015%

Eur 50,000,000: 0.010%

and as from

Eur 75,000,000 ; onwards any extra administration fee will not be calculated.

In 2009, the administrator received a fixed fee of €50,000 for the remaining period of liquidation. However, since the period of liquidation has taken longer than expected and the legal and supervisory legislation is substantially tightened since then, it is inescapable for CACEIS Bank Luxembourg to reintroduce a fee as from 1 January 2016. In this way, CACEIS will continue to provide services such as financial accounting, administrative, maintaining registry for participants and other services. This fee is €40 per participant per year, which is a 60% discount to the normal fee. In addition, participants will be charged €250 for each transfer of Units, which will have to be paid by participants.

### *Investment Management*

The Fund Manager, Global Opportunities (GO) Capital Asset Management B.V., is charged with the management of the Fund and therefore responsible for the investment objectives, in accordance with the Funds' investment policy, and decides on the Funds investment activities. The investment policy is documented in the prospectus dated 17 September 2007. The Fund Manager reports on a quarterly basis and provides (semi-)annual reports in which the results and the market conditions are discussed. In October 2009 the Fund Manager announced that it would renunciate from receiving management fee. Despite the exceedance of the liquidation period by more than three years the Fund Manager adhered to not receiving management fee. After consultation with the Supervisory Board a decision has been taken to reintroduce a cost contribution arrangement to the Fund Manager as from January 1st, 2014 as laid out in article 19.1 of the Terms and Conditions of the Prospectus. This cost contribution will have the form of an hourly fee of Eur 90. This will allow the Fund Manager to warrant a continuation of the Thielert claim, which is in the best interest of all participants.

### *Depositary activities*

The Depositary of the Funds assets is assigned to 'Stichting Bewaarbedrijf Gueustos'. This foundation holds the assets of the Fund in its name and assumes liabilities for the Fund in its name. The Depositary solely acts for and on behalf of the unit holders. The Fund is governed by the Terms and Conditions and therefore the Fund Manager and Depositary jointly dispose of the Fund capital. The Depositary is entitled to ensure that each new issue of capital to a unit holder is processed with consent of the Fund Manager. This consent of each new issue is a responsibility for the Fund Manager. The Depositary is entitled to charge an annual fee of Eur 5,000 and a variable fee of 0.01% of the average Net Asset Value. In addition the Depositary charges the Fund for maintaining the register, related to the number of transactions and number of unit holders. As from April 2009 onwards the annual fee has been reduced to zero.

### *Market conditions*

Investment transactions, custody, Depositary, security lending, process of transactions and outsourced activities are in line with market conditions. The Fund Manager made arrangements with Optimix concerning distribution fees and soft-dollar arrangements. The Fund is in liquidation and as such the Fund will not invest in new positions.

	Percentage total Net Asset Value
<b>Breakdown shares, based on MSCI - sectors</b>	
Hunt Global Resources Inc. (valued at zero)	<u>0.0</u>
Total investments	<u>0.0</u>
Total of receivables and other assets less current liabilities & provisions	<u>100.0</u>
<b>Total Net Asset Value</b>	<u>100.0</u>

## Supplementary information

### **Distributions**

Article 18 of the Terms and Conditions of Management and Custody states:

Paragraph 1:

To comply with the requirements for a fiscal investment institution (*fiscale beleggingsinstelling*), the Fund will distribute the eligible earnings to the unit holders proportional to their respective number of units within eight months after the end of the financial year. The distribution will be made after deduction of 15% of Dutch dividend withholding tax.

Paragraph 3:

The Fund Manager may, at its sole discretion and at any time, decide to distribute any gains derived to the unit holders.

Paragraph 4:

Any distribution of proceeds shall be notified to each unit holder in accordance with Article 14.1 hereof.

Article 14.1

All notices to unit holders shall be sent in writing to the addresses of unit holders stated in the register. All general notices may instead of such written notice be published through an advertisement in a national Dutch newspaper and shall be published on the Fund Managers' website.

### **Act on Financial Supervision**

Since 25 September 2000 the Fund is licensed to undertake investment activities according to the Dutch Act on Financial Supervision (Wet op Financieel Toezicht).

### **Employees**

The Fund did not have any employees during the financial year.

### **Auditors Opinion**

This semi-annual report is unaudited.
